If you haven't got time to spare away from your business quite yet, consider an extra addition to your nail services such as a luxury treatment, intensive treatment or nail art addition alongside ramping up your retail offering.

The Mavex Calluspeeling Swiss Pedicure System effortlessly removes calluses in 15 minutes to reveal smooth, soft, beautiful feet. It works by dissolving the enzyme that causes dead skin cells to stick together, softening them to enable easy removal with a plastic scraper tool. The treatment is completed by using a file tool to polish followed by a massage with the Mavex Daily Care Foot Cream. **For more information, visit www.mavex.uk**

Look for products with really well designed and simple to use instructions & included accessories. Many from these brands are cheap and easy to use but not of the same quality as the others.
